inderstanding the American attitude, has hanged its own attitude, and nothing blocks the way to a prompt settlement, not only of the Venezuelan, but of all other matters, and they are numerous, now pend-ing and creating international discord, and ereby placing our relations on an amicable footing for the future. My last words shall be, and they must surely express British no less than American sentiment, that the nation desiring arbitration is in a civilzed attitude, and that the nation refusing t is in an uncivilized attitude.

The Chronicle this morning has an interview with Sir George Gray, who is a member of the Privy Council, and who has been Governor and Premier of New Zealand, and also Governor of the Cape of Good Hope, in which he greatly favors arbitration on a permanent basis. But he considers that mal should not sit permanently, but should be appointed whenever a dispute arises. Venezuela, he thinks, is eminently a question for arbitration.

DIPLOMATIC DAY.

Foreign Representatives Received by Mr. Olney-British Guiana Troops. WASHINGTON, Jan. 9 .- This being diplomatic day at the State Department Secretary Olney received a number of foreign representatives, including Mavronyini Beyk, Turkish minister; Senor Andrade, the Venezuelan minister; Baron Von Thielmann, the German embassador, and Senor Dupuy de Lome, of Spain. The visits were said to be of a social character, but the present prominence of the countries represented by the callers led to the usual speculation. It could not be learned from official quarters that the call of the Turkish minister had any reference to the reports, now denied, that the United States proposed to make a naval demonstration at Smyrna. Minister Andrade received his official mail

from Caracas previous to visiting the State epartment, but this did not disclose any change in the situation necessary to communicated to the authorities here. Mr. Andrade's advices are that the country peaceful and the Caracas officials appear to attach no importance to the reports of a threatened revolution, as no reference is made to the subject. The country con-tinues to be very demonstrative over the attitude of the United States and patriotic meetings are being held everywhere. The reports that a considerable force of British dana troops have taken up a position on the Cayani river is not given great sig-nificance by the Venezuelan authorities here. This post has been occupied by the British for three years, so that the movement, if it has occurred, is not an advance to new territory. When the British established this port on the Cuyani, the Venezuelans at once established a post across the river and this proximity caused a conflict a year ago, for which Great Britain has demanded indemnity. The movement of British Guiana began about six weeks ago and was made known at the time to the State Department here. It was said to be an exdition, but the fact that the assistant chief of the colonial constabulary went in mand of the party gave it the appearance of something more than an expedition of inquiry. When the party left Demerara no information was given as to the purposes of the trip further than that it was in response to the wishes of the authorities

Besides the diplomatic callers on Secretary Olney, Senator Sherman, chairman of the committee on foreign relations, had a talk of a half hour with the Secretary. The Senator carried a large bundle of papers, re-lating, it is presumed, to the pending reso-lution before the foreign committee for the recognition of Cuban insurgents as beiliger-

HARVARD PROFESSORS.

They Disagree with Roosevelt on the Venezuelan Controversy.

CAMBRIDGE, Mass., Jan. 9.-Harvard's professors, through the Crimson, to-day publish two replies to Theodore Roosevelt's recent letter, one by Professor James, of the philosophical department, and the other by J. B. Warner, of the class of 1869, a prominent Boston lawyer.

Professor James says: "President Cleveland suddenly sends a message to Congress asking for a commission, upon whose report he is to say to England, 'Back down or fight.' Mr. Olney adds a letter to Lord Salisbury, saying that England's presence on this continent is a menace and an offense. Congress and a large part of our newspapers and people thereupon go fighting drunk; and Mr. Roosevelt writes you a letter to call any of us who may have presumed to beg our Congress to slow up, if they can, 'betrayers of our native land.'
We are evidently of lese majeste in Mr.
Roosevelt's eyes, and though a mad President may any day commit the country, without warning, to an utterly new career and history, no citizen, no matter how he feels, must then speak, not even to the ntative constitutionally appointed to ck the President in time of need. "May I express a hope that in this university we shall be patriotic enough not to remain passive while the destinies of the country are being settled by surprise. Let

a policy is taking shape that is bound to alter all the national ideals that we have cultivated hitherto. Men at the student age are easily swayed by phrases. But I trust that no eatch-words or nick-names will deter Harvard students from beginning the fight just at this point, and doing what little they can toward bringing the threatened increase of armament to naught." Mr. Warner refers to Mr. Roosevelt's statement in these words: "The United States which has been only half aware that there was any Venezuelan question has suddenly been startled by an ultimatum demand made upon the country with which we have the closest ties of interest and sympathy, and this coupled with an explicit threat of war. For three weeks thinking men have talked of nothing else, and there has been no stint of outspoken criticism. Unless Mr. Roosevelt has it on hand to go on and shut up the press, the pulpit, the market place and the clubs, it can hardly be worth his while to begin with muzzling this university.'

ENDEAVORERS FOR PEACE.

Opposed to Going to War Over the Boundary Trouble.

BOSTON, Jan. 9.-In relation to the war talk attending the Venezuelan difficulties President F. E. Clark, of the Christian Endeavor Society, has received a letter from Mr. F. F. Belsey, Victoria House, Rochester, England, president of the British national council of the Christian Endeavor. upon this subject. In substance Mr. Belsey says: "I felt I could not let 1895 breathe its last among all these threatenings of strife and discord without sending you and the 2,000,000 Christian Endeavorers on your side a few lines to say that we, their brethren and sisters here, would almost prefer death to hearing that an English elong to and the broad America so many of us know and love. May God avert so direful a calamity. Bid them not only to pray for peace, but remember that we will oin them at the mercy seat in earnest entreaty that this, to us, inexplicable alarm may be the occasion for a new and stronger alliance between all Christian hearts on either side of the Atlantic, and that we, the Christian Endeavorers in both countries. will, in the spirit of Christ, do our utmost to create a public opinion in favor of righteousness and peace whenever either is threatened by our statesmen or our press. Let this be a holy alliance that shall leave its traces on the future history of our

To this letter President Clark to-day cabled the following reply: "The officers of the United Society of Christian Endeavor eartily reciprocate your sentiments. We gray for peace and for righteous arbitraion of all difficulties between nations."

Mr. Livingston asked for unanimous consent to make a brief explanation of the resolution, but Mr. Boutelle objected, and the resolution was referred to the committee on foreign affairs. Dec. 17 is the date on which the President sent his Venezuelan ssage to the House

Philadelphia paper that he had "dodged" vote on the recent bond bill, explaining that he had been called home by the illness of a son, and asked a colleague to explain that he would have voted for the bill if Mr. Henderson gave notice that the repor of the committee on rules of the House would be called up to-morrow, and at 12:20 the House adjourned.

ing Target Practice at Caracas. NEW YORK, Jan. 10 .- A dispatch to the World from Caracas, Venezuela, dated Jan. 9, says: England's manner of answering the United States in regard to occurrences on the Guiana frontier has caused great excitement here. The newspapers devote leadas hostile. They urge the government to lispatch immediately a large body of troops, vaders and to resist their advance, Many armed Venezuelans have gone to the frontier without the knowledge of the government to act as a territorial guard. Crespo's expected proclamation regarding the farmers, who persisted in burning flambeaux situation and the official action which will after due notice had been served by the inbe taken thereon has not been made public. The practice was superintended by Mr.

A Warning from the Times. LONDON, Jan. 10 .- The New York correspondent of the Times this morning utters a word of warning as to the manner in which New York journals professedly opposed to President Cleveland's Venezuelan in this township most of the time since. He policy head-line the news they receive from Caracas. "If these journals," the dispatch says, "handle their intelligence in this way, what might not be expected from jingo organs, which, however, are without the dispatches." He draws from this the conclusion that the American public still remains in a state of suspended excitement, with jingoism on the alert to revive an agitation, and that therefore delay is a langerous policy in the interests of peace.
This correspondent also says: "Nothing has more impressed-and pleasantly impressed-the American people than the readiness of England, both people and government, to fight Germany sooner than suffer | and a large family of grown children surinterference by the German Emperor with | vive. English rights in South Africa." He thinks that the strength of those who oppose the President's policy in this country "depends to a great degree on the strength of the American conviction that neither the interests nor honor of the United States is concerned in the boundary dispute in its present form."

Crespo's Intentions.

LONDON, Jan. 9 .- A letter from Caracas, Venezeula, to the London Times says it is evident that it is the present intention of President Crespo not to give any satisfaction for the Uruan incident and that he is determined to combine the Uruan and frontier questions, regarding them as one dispute. The Times correspondent adds that this is directly contrary to President Crespo's previous assurance to him, and he recites at length how the change was brought about by President Cleveland's message to Congress and arrives at the conclusion that "by hook or crook, President Crespo and his friends hope to entagle the United States, and they will not leave a stone unturned to accomplish this end.'

Great Britain in the Wrong. BOSTON, Jan. 9.-Senor Don A. Fambo na, of Venezuela, was interviewed by the Standard to-day on the Venezuelan question. He spoke of the enthusiasm of his countrymen over President Cleveland's message, and expressed the belief that Great Britain, having much to lose and little to gain, will ultimately agree to arbitrate. He says: "Great Britain is clearly in the wrong as far as the boundary is concerned, while the Monroe doctrine will figure in the settlement only in its moral influence. Every South American republic will sustain Venezuela, and an alliance

would be formed should Great Britain strike

Denied by Chamberlain. LONDON, Jan. 9.-The colonial office this evening published a denial of the report which reached here from Caracas, Venezuela, via New York, that British troops, with cannon from Demerara, had arrived at Cuyuni, a station at the extreme limit of the British claims in the disputed territory and the scene of the Uruan incident.

WHY HE WENT DUCKING.

Cleveland Did Not Want to Officially Receive Salisbury's Reply. SEATTLE, Wash., Jan. 9.-C. P. Baker receiver of the Merchants' National Bank, of this city, has returned from Washington city and tells an interesting story of President Cleveland's last duck hunting

trip and the reason he made it. The story

was told to Mr. Baker by one high in gov-

ernment circles, and is as follows: "I called on the President just before the issue of his Venezueia message, and in regard to that there is a little incident that is not generally known. Mr. Cleveland's trip was not a duck hunting expedition at all. The story is this: Lord Salisbury's reply to Secretary of State Olney's note was to be made public, but Lord Salisbury had agreed not to make it public until it was received by the President of this country. Now, Mr. Cleveland absented himself on his duck hunting trip so that when Lord Salisbury's reply arrived, he would not be in Washington to officially receive it. In the meantime, he did receive it on board the tender Violet, and on board that vessel he got up his famous message, and it went before the world as an answer to Lord Salisbury's reply at the same time as that reply became a public document."

In Boston, Chicago, Washington and Brooklyn schools have been organized with the aid of this society during the past year, while the Western cities, like Minneapolis, Lansing, Mich., and Denver, Col., as well as the larger cities on the Pacific coast, have furished new starting points for promising work. This society gives aid to over 1,500 schools, without which they could not be kept open and without which in many cases there would be no religious influence or gatherings on the Lord's day.

ANDERSON, Ind., Jan. 9.-People of Madison county who have been fighting the Consumers' Gas Trust of Indianapolis got a verdict here to-day that is a great victory. Under a strict construction of the law by Judge Diven every foot of gas pipe which the Trust has laid in Madison county is liable to condemnation, and there lies an open way to the suppression of the pumping stations. The case was brought on an appeal by the Trust company from the award of commissioners appointed to condemn the right of way through the farm of Mrs. Leslie in Monroe township. The jury awards Mrs. Leslie \$550. Judge Diven holds that the company is required to use the best material in the construction of its line, but the testimony showed that this had not been done. He also holds that when this is not done the company may be enjoined from operating. Following this decision the Board of County Commissioners is proposing to examine all the pipe lines along the public highways, and where it is found that the company has not used The effect of pumping stations on the mains will be investigated, and if found that the extra pressure carried is dangerous the company will be enjoined from using the

Colombia Consul-General Thinks the Cubans Are Cunning.

NEW YORK, Jan. 9.-Collector Kilbreth to-day summoned before him Climaca Calderon, consul-general of Colombia to New York, on indirect information received from Washington that the consul-general had notified the authorities that a filibustering expedition to Colombia was being fitted out in New York. Consul-general Calderon was found in his office to-day, and denied emphatically that he had any knowledge of any flibustering expedition and had not notified the Washington authorities to that effect. "I have received word from Col-lector Kilbreth," he said, "to call upon him, and I suppose he has heard the same rumor that the newspapers have, and wants an explanation. It there has been any alleged information filed at Washington in my name," he continued, "the only explanation I can give of it is that it is a trick of the Cuban insurgent sympathizers in this city to throw Spanish detectives here off the track some expedition being fitted to go to Cuba. line with a similar trick played here last winter. At that time there was trouble in Colombia, and the Governor of Aspinwall, in the midst of the trouble, received a cablegram from Philadelphia warning him that an expedition for filibustering purposes was being fitted out in that city. It was signed 'Consul-general, Philadelphia.' Now, as a matter of fact, we have no con-sul-general at Philadelphia. The matter was investigated at the time and while it was not absolutely proved, we learned that just about the time this cablegram was sent to Aspinwall there was an attempt made to land arms in Cuba for the insurgents on a consignment made from Philadelphia. Assuming that there has been alleged official information lodged at Washington, I think the same parties are at work again. I know that detectives in the employ of the Spanish government are watching every move of the Cuban sympathizers here. It may be possible that a private expedition is being fitted out and this is an attempt to throw them off." TO ALL CHRISTIANS.

Pope Leo Will Soon Issue Another

Encyclical. NEW YORK, Jan. 10.-Special advices to the World from Rome say: The central object of Pope Leo's policy has always been to bring about-or to prepare-a grand reunion of the Christian churches. Holy Father has already published two encyclicals devoted to that end. One was addressed to the princes and the peoples. The other took the form of an appeal to Anglicans. A third encyclical will shortly Andrews ascertained, it is claimed, be made known. It is to be addressed: "Ad Omnes Christianos" (To all Christians.) Thus one more innovation will be added to the others of the present Pope. In former times it was the cus-tom to address the papal docu-ments "to the bishop and the faithful in communion with the Holy Apostolic Church." Leo XIII has defied tradition by dedicating his encyclicals to noncatholics as well as Catholics. The next is really meant as an appeal to Protestants and schismatics. It will attempt to prove to them by theological and historical arguments that from the days of St. Peter onward the has always been the proper primate of all Christian churches. In support of this Leo XIII will quote not only from Catholic theologians, but also from a number of heterodox authorities, choosing passages frem the works which they had published prior to their rupture with the papacy. Among other writers (and for the first time probably since the reformation) Luther will be quoted.

French Blackmailers. PARIS, Jan. 9.-The Vicomte El Rio de Civry, editor of the Echo de l'Armee, has been arrested on the charge of having blackmailed the late Max Lebaudy, who inherited a fortune of about \$9,000,000 from his father, a sugar refiner, about three years ago, and since that time up to the date of his death, a few weeks ago, lived the life of a profligate. On Jan. 7 Count Cestie was also arrested on the charge of having obtained 1,000,000 francs by fraud from Lebaudy and a warrant was issued for the arrest of M. Balensi, a banker, who was also charged with blackmailing Lebaudy. It is now announced that Balensi has absconded and that his liabilities amount to 6,000,000 francs. Of this sum 2,000,000 francs are said to have belonged to the estate of Lebaudy.

What Mr. Wellman Says. CHICAGO, Jan. 10 .- A special from Washington to the Times-Herald says: Unless the Turkish Porte makes prompt reparation for the burning of the American mission buildings at Harpoot, the indemnity of \$400,000 demanded by this government will be collected by force. This statement was made to-night by a high officer of the government. He accompanied it with the proviso that it is believed the Porte will make the demanded reparation when it perceives that the United States is not to be trided with. Incidentally, efforts will be made to assist persecuted Armenians, and the ships of the American fleet will afford a safe retreat for refugees who may be compelled to flee for their lives.

Lord Blackburn. LONDON, Jan. 9 .- Lord Blackburn is dead. GOLD OUTPUT CORNERED.

The Rothschilds Reported to Have

Made Contracts in America.

KANSAS CITY, Mo., Jan. 9.-The Journal revives the recent story of attempts being made to corner the output of Western gold mines, and asserts that through business transactions of the Wells-Fargo Company it has developed that agents of the Rothschilds have secured contracts with the mine owners of Cripple Creek under which most of the gold taken from the mines there during the coming year will go into the coffers of the bankers. It is stated that a few months ago the express company experienced a great falling off in its revenues, due to sudden cessation of the gold pments from the smelters at Denver, Pueblo and other Western cities. The company sent its general agent here, Mr. Amador Andrews, to Colorado to see whether the business could not be recovered. Mr. that miners and smelters and the bankers, and that the output of many of the gold mines was being regularly stopped in the Western cities. Mr. Andrews refuses to confirm this statement, but the Journal asserts that the

the Borden Jewels for \$5,000. NEW YORK, Jan. 10.-The Press this morning says: "I. Townsend Burden, whose home was robbed on Dec. 27 of diamonds worth about \$50,000, has received a letter from the thieves in which they offer to return the gems intact providing Mr. Burden sticks to his promise of immunity from arrest and also gives them \$5,000 reward. The letter was received by Mr. Burden last Wednesday. It was terse, and was mailed in this city. In pursuance or his published promise of 'no questions asked,' Mr. Burden kept the receipt of the letter a secret from the police and started negotiations with the sender, who signed himself 'Lawyer.' The writer says 'the stuff is just as we got it,' and, as an evidence that he was really directly connected with the sensational robbery, offered to send Mr. Burden one of the small stones stolen, to be returned in such a manner that the thieves could not possibly be traced through the deal.

Straight Democratic Ticket Won at the Memphis Election.

MEMPHIS, Tens., Jan. 9.—The A. P. A. made a test of its strength to-day in the municipal election for a fire and police commissioner, two members of the Board of Public Works, a street commissioner and two members of the Board of Education. The contest was between the regular Democratic organization and a citizens' ticket, the latter indorsed by the A. P. A., and the straight Democratic ticket won by about one thousand majority. The vote was only about 50 per cent. of its registered strength of nine thousand. After the polls closed in the Ninth ward a rlot was almost precipitated by a Democrat firing two shots into a crowd, one of which struck a boy in the leg. Thereupon opposing bystanders armed themselves with Winchester rifles, but the police intervened and prevented se-

rious consequences. SECRETARY OF COMMERCE.

BUSINESS TROUBLES.

Bartley, Johnson & Co. and the Belle of Nelson Distilling Company Fail. LOUISVILLE, Ky., Jan. 9 .- Bartley, Johnson & Co. and the Belle of Nelson Distilling Company made assignments this afternoon to the Columbia Finance Company. The two assigned interests are joint, the firm being the owner and operator of the distilling company. The liabilities of Bartley, Johnson & Co. are about \$100,000, and the assets are believed to reach that amount. The liabilities and assets of the Belle of Nelson company are estimated at about \$200,000.

Bartley, Johnson & Co. did a general obbling business, which reached all over the country. In 1893 the firm became hard up from various causes, principally on a count of bad investments, and was forced to ask its creditors for an extension of time or to take whiskles made by the Belle of Nelson company in payment of their debts. In this way the Belle of Nelson company assumed the most of the obligations of Bartley, phnson & Co., amounting to between \$250,000 and \$300,000, and this has greatly hampered the distillery, as most of its product went to pay old debts. The general depression of the whisky trade was a factor in bringing about the second embarrassment. The promises made by Bartley, Johnson & Co. in 1893 have been carried out, and as most of their debts have company and it will continue its business.

Other Failures.

BALTIMORE, Jan. 9.- The Fait & Stagle Company, oyster packers, made a deed of assignment this morning to John S. Gibbs. His bond is for \$100,000, indicating assets of \$50,000. The liabilities will probably exceed the assets. The cause of the failure is excessive competition and the resultant low prices.

CHICAGO, Jan. 9 .- David H. Dickinson dealer in marble, made an assignment this afternoon. The failure was caused by difficulty in making collections and general depression in business. The liabilities are placed at \$70,000 and the assets at \$100,000. BURLINGTON, N. J., Jan. 9.-J. T. Stevens & Sons, proprietors of a lumber mill here, have made an assignment. Their assets, including their plant, are given as \$10,000, while the liabilities aggregate but

Mrs. Parker alleges that she invested \$5,000 in the race track last July, when the lease on the park was secured from Chris. Von der Ahe. For her money she was to get a one-fourth interest and 25 per cent. of the profits of operating the track. She alleges that Foster has kept a crooked set of books, so as to reduce the apparent receipts and increase the expenses; that he has conspired with others,

January Century. Even so simple a government act as taking a census awakens in the minds of the people suspicions that some other end is in view. Mr. Smith cites a case, known to him, in which the younger of two brothers concluded that taking a census meant compulsory emigration, and if that were so he must go; therefore, rather than take a long journey-which, be it noticed, was an entirely gratuitous supposition on his part-he committed suicide, "thus checkmating the government.
